

# KARTHIKRAJA S

Senior Software Engineer | Java & Spring Boot Microservices | Retail Banking & Fintech

+91 90873 93629 | kkrpcs@gmail.com | Bengaluru, India | [Profile](#)

## PROFESSIONAL SUMMARY

Senior Software Engineer with 7+ years of experience designing, building, and operating enterprise-grade backend systems for retail banking, fintech, and security domains. Direct prior contributor to ING Bank's RUBIK 1.0 platform at HCL, delivering core modules for daily banking and mortgage products across European markets. Strong hands-on expertise in Java (8–21), Spring Boot, Spring Security, Spring MVC, JPA, microservices, RESTful APIs, OpenAPI/Swagger, Apache Kafka, Oracle, Docker, OpenShift, Azure DevOps CI/CD pipelines, and Agile (Scrum/Kanban) delivery. Practitioner of SOLID, Clean Code, Domain-Driven Design, TDD, and BDD with Cucumber. Recognized with multiple Deloitte Applause Awards and HCL's LiveWire Award for technical excellence and production-grade engineering.

## CORE SKILLS

**Languages:** Java 8 / 11 / 17 / 21, Golang, SQL, PL/SQL, Python (scripting)

**Spring Ecosystem:** Spring Boot 3.x, Spring MVC, Spring Core, Spring Security, Spring Data JPA, Spring Kafka, Spring WebFlux, Dependency Injection

**APIs & Microservices:** RESTful APIs, OpenAPI / Swagger, GraphQL, JSON/XML, API composition, microservices, event-driven systems, reactive programming

**Architecture & Design:** SOLID, Design Patterns, Clean Code, Software Craftsmanship, Domain-Driven Design (DDD), Clean Architecture

**Persistence & Data:** JPA, Hibernate, JDBC, Oracle, MyBatis, MongoDB, MySQL, DynamoDB, H2, Redis

**Messaging & Integration:** Apache Kafka, Apache Camel, REST/GraphQL integrations

**Testing & Quality:** JUnit 5, Mockito, MockMvc, WireMock, BDD with Cucumber, Selenium, TDD, SonarQube, Checkmarx

**Cloud & DevOps:** AWS (SQS, DynamoDB, S3), OpenShift, Docker, Kubernetes, Azure DevOps pipelines, Jenkins, Ansible, Grafana, CI/CD

**Security:** Spring Security, JWT, OAuth 2.0, Mutual TLS (mTLS), Zero Trust principles, Redis security hardening, banking-grade compliance

**Build & Source Control:** Maven, Gradle, Git, GitHub

**Methodologies:** Agile (Scrum, Kanban, XP), TDD, BDD, CI/CD, Pair Programming, Code Reviews, Stories Refinement, Release Management

**Domain:** Retail Banking, Mortgages, KYC/AML/FATCA/CRS/CDD, Core Banking, Financial Microservices, Cybersecurity / Zero Trust Network Access

**Modern Engineering Practices:** GitHub Copilot and Claude Code (AI-assisted development for code completion, refactoring, test generation, and codebase navigation)

## PROFESSIONAL EXPERIENCE

### Deloitte Consulting India Pvt. Ltd.

Consultant – Software Engineering

Bengaluru, India

Sep 2024 – Present

- Designed and developed backend microservices for Canada Post applications using Spring Boot 3.x, Spring Security, and JPA, ensuring functionality, quality, and performance targets across releases.
- Led on-premises to cloud migration workflows on AWS and OpenShift, including environment management, release coordination, and post-deployment monitoring via Grafana.
- Built event-driven orchestrators integrating Shopify REST/JSON & GraphQL APIs with legacy XML backends, leveraging Apache Kafka and AWS DynamoDB for asynchronous billing and tracking flows.
- Authored unit, integration, and contract tests using JUnit 5, Mockito, MockMvc, and WireMock; participated in stories refinement, code reviews, and production support analysis and bug-fixing.
- Recognized with multiple Deloitte Applause and Spot Awards for technical excellence, on-time delivery, and client impact.

### Oracle Financial Services Software Ltd.

Bengaluru, India

*Software Engineer*

Oct 2022 – Sep 2024

- Developed core retail banking and financial microservices using Spring Boot, Spring Security, JPA, Oracle PL/SQL, and WebLogic, supporting mission-critical banking products.
- Improved transaction processing speed by ~20% through service-level optimization, JDBC query tuning, and intelligent caching strategies.
- Led production support rotations, maintaining 99.9%+ uptime and ensuring compliance with banking-grade security and audit standards.
- Refactored legacy service layers and optimized PL/SQL queries, significantly improving maintainability and reducing technical debt.

**InstaSafe Technologies Pvt. Ltd.**

*Bengaluru, India*

*Software Engineer*

Nov 2021 – Sep 2022

- Contributed to the Zero Trust Network Access (ZTNA) platform backend, implementing JWT-based authentication, OAuth 2.0 flows, and Mutual TLS (mTLS) for secure enterprise access.
- Developed reactive microservices using Spring WebFlux and integrated MongoDB with high-performance Golang services.
- Built BDD-style automated testing frameworks with Cucumber and Selenium, increasing QA coverage and shortening release cycles.
- Partnered with cross-functional teams to triage and resolve critical production incidents, improving overall product stability.

**HCL Technologies Ltd.**

*Bengaluru, India*

*Software Engineer*

Dec 2018 – Nov 2021

- Delivered core backend modules for ING Bank's RUBIK 1.0 retail banking platform, supporting daily banking operations and mortgage products across European markets using Java, Spring Boot, Spring Security, and JPA.
- Integrated Global KYC services (AML, FATCA, CRS, CDD) using Spring Kafka for real-time, event-driven data synchronization across banking systems.
- Implemented system observability via Grafana dashboards, authored unit and integration tests with JUnit and Mockito, and owned Azure DevOps CI/CD pipelines.
- Awarded the HCL LiveWire Award (2019) for designing and implementing a critical Redis security patch under tight production timelines.

## **CERTIFICATIONS & CONTINUOUS LEARNING**

---

- Spring Professional fundamentals — Spring Boot, Spring Security, Spring Data, reactive programming.
- GitHub Copilot — daily practitioner; pursuing GitHub Copilot Certification (Microsoft).
- Hands-on proficiency with Claude Code (Anthropic) — agentic coding, codebase exploration, and multi-file refactoring.
- Generative AI for Software Engineers — coursework on prompt engineering, RAG, and LLM integration patterns.

## **AWARDS & RECOGNITION**

---

- Multiple Applause and Spot Awards — Deloitte Consulting (2024–2025) for technical delivery and client impact.
- LiveWire Award — HCL Technologies (2019) for critical Redis security patch implementation.

## **EDUCATION**

---

**Sona College of Technology**

*Tamil Nadu, India*

*Bachelor of Engineering (B.E.) — Electronics and Communication Engineering*
